

📌 **Fullstack software Developer with web-design expertise, ready for a new challenge!**

💬 **About me:**

"I bring a diverse background in motion graphics design, digital marketing, and web development.

Since October 2022, I've focused my career on full-stack software development, combining creativity with technical expertise.

As a highly social and collaborative team player, I thrive on crafting solutions that deliver meaningful impact to users."

📅 **Work history:**

2023 - 2025:

- **(Current) Fullstack Java Developer at ITVitae Learning** - Creating startup web applications in Java accompanied with PluralSight, AWS and Scrum courses
- **Software developer trainee at ITVitae Learning** - Completed a year long in-depth training in full-stack development through a full-time traineeship program.

2021 - 2022:

- CS50: Introduction to Computer Science at Harvard University - A 12-week comprehensive online course available on edX.org, providing a foundational introduction to programming.
- Career exploration and repositioning with job coaching - pursuing my lifelong passion for software development
- Volunteer dog trainer - Experience handling groups of up to 10 dogs.
- Deep dive into art creation - Self-directed learning period into creating fine abstract art through color, form, and composition.

2019 - 2020:

- Affiliate marketing specialist at TradeTrackerNL - Learning about affiliate marketing and tracking systems.

2017 - 2018:

- Content/marketing strategy at Source1Media - Graduation project focused on researching online advertising, creating content and analytics for a publishing company.

2014:

- Production & editing intern at Blue Circle RTL Boulevard - Contributed to photo editing and video animations for cable TV.

2009 - 2021:

- Farmhand at local farm - Developed a strong work ethic through hands-on harvesting of asparagus, managing the farm and training new colleagues.

🎓 **Education:**

Degree:

- **Bachelor of Science (BSc), Communication & Multimedia Design;** Hogeschool Utrecht (HU) 2018 - minor in Gamification & Serious Games.
